YEHONG HU

Software Developer - Full Stack

Toronto, ON | (249) 872-9007 | huyehong76@gmail.com | github.com/yehonghu | yehonghu.github.io/james-hu-portfolio

PROFESSIONAL SUMMARY

Software Engineering Technology graduate (Centennial College, Advanced Diploma, Apr 2026, GPA 3.7/4.0) with full-stack experience building and cloud-deploying React/Node.js applications end to end. Led a student team through the full SDLC to ship a live service-booking platform on Render with MongoDB Atlas. Seeking junior software developer roles in the Greater Toronto Area.

TECHNICAL SKILLS

Languages: JavaScript, C#, Java, Python, SQL, HTML5, CSS3

Front End: React, Three.js, Bootstrap, Vite Module Federation (micro-frontends), responsive design

Back End & APIs: Node.js, Express.js, GraphQL, RESTful APIs, ASP.NET, JWT authentication, role-based access control

Databases & Tools: MongoDB, Mongoose, SQL Server, MySQL, Entity Framework, Git/GitHub, Agile/Scrum, cloud deployment, unit testing

SELECTED PROJECTS

BookEase - Service Booking Platform | Team Lead / Full-Stack Developer 2026

Live demo: bookease-5e97.onrender.com

- Led a student team through the full SDLC - requirements, architecture, Git-based workflow, testing, and release - to build and deploy an end-to-end local-service booking platform.
- Shipped a public beta on Render backed by MongoDB Atlas: customer/provider/admin role-aware workflows covering requests, offers, availability, bookings, reviews, and administration.
- Released with zero critical bugs; earned an A+ project grade.

Community Engagement Platform | Full-Stack Developer 2026

- Integrated independent authentication and community front ends with Vite Module Federation in a micro-frontends architecture.
- Built Node.js + GraphQL services with JWT authentication and role-based access for residents, business owners, and organizers.

Game Library Management System | Full-Stack Developer 2026

- Built a React front end and REST API on MongoDB/Mongoose with full CRUD for a personal game collection.
- Independently learned and integrated Three.js for an interactive 3D browsing interface; secured with JWT authentication via HTTPOnly cookies.

EDUCATION

Centennial College of Applied Arts and Technology, Toronto, ON Graduated Apr 2026

Advanced Diploma, Software Engineering Technology | GPA: 3.7/4.0

Relevant coursework: Object-Oriented Programming, Data Structures and Algorithms, Web Development, Database Design, SDLC, Systems Analysis and Design

LEADERSHIP & COMMUNITY

- Volunteer Peer Tutor - Intro to Programming, Centennial College (2024-2026): one-on-one support for 12 students on core programming concepts and problem solving.
- President - Water of Life Bible Club, Centennial College (2024-2026): led event planning, outreach, and member coordination.
